

Good Morning

Well done to everybody who worked so hard last week!

Remember if your graduation photo and caption hasn't been emailed to 6thclassgradphoto2020@gmail.com you need to do that ASAP!! You have until the end of this week to submit your school memories for the Yearbook to the Google Document.

I know that some of you don't have access to devices all of the time and may find it difficult to submit work on time. Don't panic if you cannot submit the work before the deadlines, just submit it whenever you can and I will correct it - please send me a message if you are finding it difficult to upload work/ if the work is taking too long/ is too tricky etc.

Remember you can send me messages on Google Classroom if there is something you don't understand - quite a few people sent me messages last week when they were finding things a bit tricky and we were able to work things out together.

Also, some of you are submitting very few assignments, not including rough work for maths etc, I will be emailing your parents at the end of this week if that continues.

For optional work this week I have included a link to another competition - this one asks you to make a game teaching people about sustainable development goals (theme of our 2020 calendar!) it would be great if some of you tried this. Some people in the class have done very well in national competitions this year - huge congrats to Emily who was a runner up in the John Boyne Short Story competition, with her story 'The Message'. Well done!!!!

Ms Fitzgerald
