- Read the PowerPoint all about 3D shapes on SeeSaw.

**\*\* Remember** - 3D shapes are **NOT** flat shapes. They have edges, vertices (corners) and faces (sides).

**Remember to show your workings! Write the sum and the answer.**

#### Planet maths

**\*\*Remember** - The **NET** of a shape is when you flatten (or open out) a shape and you can see all of its faces. **Take a look at pg. 154 to see what the net of different shapes looks like.**

- Pg. 154 - B. Take a look at the different nets and guess what 3D shape it is.
